

SHATHA IBRAHIM ALKHULAIFAT

Riffa, Bahrain | +973 39049144 | shathakhlifat@gmail.com | LinkedIn: [Shatha Ebarhem](#)

PROFESSIONAL SUMMARY

Recent Cybersecurity graduate combining a strong foundation in IT auditing (ISACA/ISO) with secure software engineering. Hands-on experience evaluating infrastructure vulnerabilities and building resilient, automated technical solutions like desktop security toolkits and secure API integrations.

EDUCATION

Bachelor of Science in Cybersecurity

University of Bahrain

2021 – June 2026

PROFESSIONAL EXPERIENCE

IT Security Audit Trainee

Alayam Newspaper

June 2026 – Present

- Conducted OS and IT infrastructure security audits in alignment with ISACA and ISO 19011:2018 standards to minimize operational risks.
- Evaluated access controls, encryption policies, and patch management to identify and document critical vulnerabilities.
- Authored executive audit reports highlighting security gaps (e.g., missing MFA, unencrypted backups) with strategic, actionable remediation plans.

KEY TECHNICAL PROJECTS

CHEA – Cyber Defender Toolkit

Senior Graduation Project

- Developed a comprehensive cybersecurity desktop app featuring a secure password vault and advanced security analysis tools.
- Architected the frontend utilizing React 18 and TypeScript, seamlessly integrating it with a Firebase cloud database.
- Engineered a high-performance, strictly secure backend utilizing Rust and Tauri.
- Designed an immersive, cyberpunk-themed UI supporting light/dark modes and modern animations.

Secure 2-Way CRM Integration Bridge

- Engineered an automated 2-way synchronization bridge connecting an external CRM with HubSpot using Node.js, TypeScript, and PostgreSQL.
- Implemented strict OAuth 2.0 authentication and managed real-time data updates via REST APIs and Webhooks.
- Built automated lead-scoring logic with stringent data validation to securely process and route incoming data packets.
- Authored highly resilient, defensive code to handle edge cases and prevent system crashes.

SKILLS & COMPETENCIES

Cybersecurity & IT Audit: Risk Assessment, Compliance Standards (ISACA, ISO 19011), Access Control Evaluation, Vulnerability Management, MFA Implementation, Technical Documentation & Reporting

Software Development: Node.js, TypeScript, Rust, React 18, PostgreSQL, REST APIs, Webhooks, OAuth 2.0, Firebase, Tauri

Soft Skills: Analytical & Problem-Solving, Extreme Attention to Detail, Effective Communication, Adaptability & Continuous Learning, Leadership & Accountability

CERTIFICATIONS & LANGUAGES

Certifications

CompTIA Security+ (In Preparation)

Languages

Arabic (Native) | English (Professional Working Proficiency – IELTS: 6.5)
